Never handle the device, the power supply while your hands are wet or damp. To find out which type your cartridge is please consult the literature accompanying your cartridge. ! Warning of a hazard for the user, the unit or possible misuse. The literature for cartridges should also specify the correct input impedance (low-output MC cartridges) and the correct input capacitance (high-output MC and MM cartridges), into which the cartridge is designed to work. The power supply is used to disconnect the unit from the mains. The product shall not be used in damp or wet locations, next to a bathtub, sink, swimming pool or any other similar conditions. Examples of typical settings Ortofon 2M Red (MM) input gain 41dB, input capacitance 150pF, input impedance 47kohms ON 1 2 3 4 5 6 7 8 41dB 2000R 100pF 200pF 1000R 100R 10R 51dB Ortofon X5-MC (High-Output MC) input gain 41dB, input capacitance 370pF, input impedance 47kohms ON 1 2 3 4 5 6 7 8 41dB 2000R 100pF 200pF 1000R 100R 10R 51dB Ortofon Rondo Red (Low-Output MC) input gain 61dB, input capacitance \*, input impedance 10ohms. Never spill any liquid on the device or the power supply. Important notice. Settings Use the dip switches at the bottom of the unit to set input gain, input capacitance and input impedance. There are dip switches on the bottom of this preamp that allow you to adjust the settings to the cartridge you are using....there are suggested settings in the owners manual. ! To alter settings the unit must be disconnected from the power supply and the amplifier. Avoid letting liquids enter the device or the power supply. In order to achieve maximum performance and reliability you should study these instructions for use carefully. Never place any item containing liquid, such as a flower vase on or near the device. \* Input capacitance is irrelevant for low-output MC cartridges ON 1 2 3 4 5 6 7 8 41dB 2000R 100pF 200pF 1000R 100R 10R 51dB Before connecting to the mains, make sure that the voltage in your area meets the voltage requirements printed on the power supply. Never place any naked flame sources, such as lighted candles on or near the device. Please set both channels equally. I love my Tube box S2.....it will not disappoint! © Audio Trade GmbH · Pro-ject Tube Box S · Revision 2013.1.15 2 Dear music lover, thank you for purchasing a PRO-JECT AUDIO phono amplifier. How does the rega fono mm mk iii moving magnet phono pre-amp - black compare to this item ? I am not entirely sure, but I know that I use the Ortofon 2m Red MM Cartridge and this preamp is amazing with that. Make sure that the power supply is easily accessible at all times. Safety instructions ! AC outlet voltages vary from country to country. If in doubt please consult your dealer.
